- 

Haley and Hannah would like you to meet

Theo and Binx

Theo is a sweet, laid-back 7-year-old who loves lounging in his favorite spots, watching the world from his cat tower, and getting plenty of affection. He may have started out as an only cat, but these days he happily shares his home with his little sister, Binx. Theo is the king of his household and loves being wherever his people are!

Binx is a playful and curious kitten who loves exploring, chasing toys, and keeping everyone on their toes! She joined the family as a tiny kitten and has grown into a confident little adventurer. Binx especially loves playing with her big brother Theo. She may be small, but she has a very big personality!

Community News

The City of Powell is proud to welcome The Ohio State University Wexner Medical Center Outpatient Care Powell to our community. Opened August 3, this new facility brings expanded access to high-quality health care right here in Powell.

As the first Ohio State University Wexner Medical Center ambulatory location to offer services through The James Cancer Hospital, Outpatient Care Powell brings an impressive range of health care services together under one roof.

Services include cancer diagnosis and treatment, primary and specialty care, physical therapy, advanced imaging, laboratory services, endoscopy, an on-site retail pharmacy, advanced urgent care, walk-in care, and more.

And there's another nice perk! The first-floor Café/Bistro is open to the general public daily until 3:00 PM. Stop by for breakfast goodies, lunch, or a cup of coffee.

The walking paths and nature preserve are also open to the public, providing a wonderful opportunity to get outside, enjoy the beautiful surroundings, and experience this new addition to our neighborhood.

We're excited to welcome our new neighbor and all that The Ohio State University Wexner Medical Center Outpatient Care Powell brings to our community!
